

WHERE TO GET TESTED IN ACT

People who know their health status are better able to make informed lifestyle choices. This includes testing for hepatitis B & C, protecting the liver, preventing transmission, avoiding serious liver damage, and seeking treatment. Testing for hepatitis B & C and other blood borne viruses and sexually transmissible infections is offered by a range of organisations in the ACT. Some services are offered for specific populations.

Canberra Sexual Health Centre

Canberra Sexual Health Centre is a free service and a leading Canberra clinic for the testing and treatment of sexually transmissible infections and blood borne viruses. No appointments are necessary at the Centre's walk-in clinics:

Monday, Tuesday, Thursday and Friday 9am - 2pm
Wednesday Afternoons 1.30pm - 3.30pm

M Clinic offers STI checks for men who have sex with men from 4:30pm – 7:00pm on the first business Monday of every month. HIV results are available via SMS in less than 24 hours.

Building 5, Canberra Hospital, Garran, ACT

Companion House

Companion House is a community based organisation working with adults and children who have sought safety in Australia from persecution, torture and war related trauma. Programs include a General Practice and primary health service for refugees and asylum seekers.

The service is committed to long GP consultations, bulk billing and interpreter use.

41 Templeton St, Cook, ACT
(02) 6251 4550 | companionhouse.org.au

Directions Health Services - Althea Wellness Centre

Althea Wellness Centre is a clinic for anyone experiencing the impact of alcohol and other drugs, including family members/partners of people who use substances. Services are free or bulk billed (including immunisations and screening). Appointments are essential.

Level 6 Cosmopolitan Centre, Woden Square, ACT
(02) 6132 4800 | directionsact.com

Directions Health Services – Civic Needle and Syringe Program Outlet

The Civic primary NSP Outlet provides free sterile injecting equipment, information on safe injecting practices, general health information and access to primary health care services for people who inject drugs. People who use drugs are able to access free blood borne virus testing on most Thursdays. No appointment is needed, however it's good to call ahead to confirm.

Sexual Health and Family Planning ACT (SHFPACT)

SHFPACT provides sexual and reproductive health information, education and clinical services (including testing for blood borne viruses and sexually transmissible infections). SHFPACT offers discount fees for members, and concessional fees* and free services for priority groups including:

- Young people (up to 21 years, and full-time students up to 25 years)
 - Financially disadvantaged people (health care concession and pension card holders)
- *Clients paying concessional fees will be out of pocket around \$25 per consultation.*

SHFPACT recognises and addresses other barriers for other people:

- Culturally and linguistically diverse backgrounds (interpreter services can be booked for your consultation)
- People with disabilities
- Aboriginal and Torres Strait Islanders, and
- Gay, lesbian, bisexual, and queer identifying people, and sex- and gender-diverse people.
