

Recognising that the drug using community is a group at high risk of contracting COVID-19, and as such is a priority group, COVID Vaccines have been made available for members of this community.

The **PAT** van will continue providing Pfizer & AZ vaccines at various places.

People can call **DIRECTIONS** at Woden (6132 4800) for further details on clinics and van locations.

Vaccines are also available on short notice (to the general community) at the Belconnen Medical Center and most pharmacies.
